

# Banaba Extract

## Production Method

Premium Banaba leaves undergo extraction using water or ethanol, followed by purification and concentration processes.

## Component

Banaba extract primarily contains corosolic acid, ellagitannins, and flavonoids.

## Function

Blood sugar regulation      Antioxidant support  
Anti-inflammatory      Metabolic health enhancement

## Specification

Appearance: Brown Yellow Powder

Solubility: Water Soluble

Content: 20% Corosolic acid HPLC

## Advantages

High bioactive compound standardization; Multiple ratios of corosolic acid; Low sugar content options.

## Packaging&Storage

Each paper drum contains 25kg of the product, which is Packed in sealed aluminum foil bags with plastic lining or sealed double plastic bags. Please store in cool and dry places.

## Application

Nutritional Supplement

Blood glucose management products
