

Oats Extract

Production Method

Premium oat kernels are processed via aqueous or ethanol extraction, followed by purification and concentration.

Component

Primarily contains β -glucans, dietary fibers, and vitamins such as B-complex.

Function

Supports cardiovascular health

Aids digestion

Promotes blood sugar balance

Enhances skin hydration

Specification

Appearance: White Powder

Solubility: Water Soluble

Content: 65% β -glucan

Advantages

High β -glucan potency; Adjustable fiber profiles; Customizable particle sizes.

Packaging&Storage

Each paper drum contains 25kg of the product, which is Packed in sealed aluminum foil bags with plastic lining or sealed double plastic bags. Please store in cool and dry places.

Application

Functional food additives

Cosmeceuticals.
