

Pomegranate Peel Extract

Production Method

High-quality pomegranate peels are used to prepare extract via ethanol or water-based extraction, then purified and concentrated

Component

Pomegranate peel extract mainly contains ellagic acid, punicalagins, and gallic acid.

Function

Antioxidant properties

Anti-inflammatory effects

Antimicrobial activity

Skin health enhancement

Specification

Appearance: Brown Powder

Solubility: Soluble in Water

Content: 40% ellagic acid

Advantages

High antioxidant capacity; Various punicalagins and ellagic acid ratios; Customizable extraction profiles.

Packaging&Storage

Each paper drum contains 25kg of the product, which is Packed in sealed aluminum foil bags with plastic lining or sealed double plastic bags. Please store in cool and dry places.

Application

Dietary Supplements

Cosmeceuticals
