

Sesame Extract

Production Method

High-quality sesame seeds undergo ethanol extraction or ultrasonic-assisted water extraction, followed by purification and concentration

Component

Sesame extract primarily contains sesamin, sesamol, fatty acids (e.g., linoleic acid), and vitamin E derivatives

Function

Antioxidant activity Skin barrier repair
Cardiovascular support Hormonal balance regulation

Specification

Appearance: White Powder

Solubility: Soluble in Water

Content: 90% Sesamin

Advantages

High sesamin bioavailability; Customizable lignans ratios; Stable formulation for oxidative stability

Packaging&Storage

Each paper drum contains 25kg of the product, which is Packed in sealed aluminum foil bags with plastic lining or sealed double plastic bags. Please store in cool and dry places.

Application

Dietary Supplements

Dermocosmetics
