

Polydatin

Production Method

Derived from premium plant sources (e.g., Polygonum cuspidatum root) via solvent extraction or purification processes, followed by concentration.

Component

Polydatin is a potent stilbenoid glucoside, primarily composed of the polyphenol Polydatin itself (Piceid).

Function

cardiovascular

neuroprotective

Anti-inflammatory

Specification

Appearance: White or Off-White Powder

Solubility: Slightly soluble in water

Content: 98% Polydatin

Advantages

Multiple purity specifications available; Customizable particle size and solubility profiles

Packaging&Storage

Each paper drum contains 25kg of the product, which is Packed in sealed aluminum foil bags with plastic lining or sealed double plastic bags. Please store in cool and dry places.

Application
